

The 4th Annual

GAME CHANGER PITCH COMPETITION

Partnership Opportunity

The Game Changer Pitch Competition, held in partnership by Decentralised Energy Canada and Arcus Power Corp., is open to early-stage and growth-stage companies incorporated in Canada developing innovative products and services for the decentralised energy industry.

About the Decentralised Energy Forum:

This is a unique and high-impact annual event assembling industry leaders, entrepreneurs, government, and investors. It discusses and showcases next generation energy innovations and strengthens the decentralised energy supply chain. Topics are focused on transitioning to a net zero energy future and attendees connect with business opportunities that ultimately integrate energy innovations into real projects.

The Game Changer Pitch Competition is looking for influential partners that are actively accelerating the commercialization of clean technologies, supporting innovators and ecosystems, and creating public-private partnerships and community collaboration. All with the goal of driving meaningful change in pursuit of our net-zero goals.

The partnership package includes opportunities to demonstrate your thought leadership, raise your brand awareness to a network of 60K+ sustainability professionals, promote your sustainable initiatives, network with like-minded organizations, and grow your business by meeting prospects, customers, partners and early-stage companies.

Entitlements:

- Recognition as a Partner of the Pitch Competition on all promotion material, including the competition outreach packages
- An opportunity to offer opening remarks (3 minutes) at the beginning of the challenge
- One seat at the adjudication table (pitch project team / working committee)
- List of participants from each activity (excluding contact details)
- Two full event registrations
- Sponsor visibility

Investment: \$25,000/partner (to a maximum of three partners)
